Stairs lead up to a spacious and comfortable living room 21 x 12 ft with windows to the front. Another half flight leads to a tiled bathroom with bath with shower over - basin and another WC. A smaller bedroom with double bunks is next door on the same level. Both these rooms have windows to the back.

Second floor

Stairs lead up another half flight to the main bedroom - 21 x 12 ft with windows to the front. There are queen sized beds in both this and the loft bedroom - also built in wardrobes.

Loft floor

Another half flight of stairs leads up to the largest bedroom in the loft - about 16 x 14 ft. This bright and sunny room has windows on two sides.

This cottage will sleep six people and a baby however it is only fair to say that if there were to be 3 adult couples, the bunk bedroom is smaller than the other two bedrooms.
