Le Loger is a peaceful, quiet retreat that has been recently renovated and is set in the heart of rural Normandy surrounded by open countryside and a host of ancient villages. Calvados is produced locally and Mantilly is called the "Pear Capital" of Normandy, famous for cider and poire. Camembert and Brie are among the local cheeses produced from the milk supplied by the local dairy farms.

Your hosts will help you to enjoy this tranquil and unspoilt region of France. Although situated in the beautiful Orne Department and only two hours from Paris by train. Mantilly has a bakery, a butcher, hairdresser, café and a small grocery store. The house has a private ground floor sitting room for guests and plenty of private outdoor garden area.

The local area is full of traffic free picturesque country lanes and byways ideal for walking and peaceful cycling. Within easy traveling distance we have some of the most interesting and well visited sights of France including Mont St Michel, Bayeux tapestry and the Normandy D-Day Landing Beaches. Castles and ancient chateaux abound in this area all steeped in medieval history. Normandy is not a wine growing area but just a few hours to the south we have the famous Loire Valley boasting countless vineyards and elegant chateaux.

*If you are not inclined to drive yourself in France, your hosts will be very happy to collect you from a seaport or railway station and organize accompanied tours in this area at a reasonable cost.*

Fine eating is one of the foremost hallmarks of Normandy and just in our small area we have an amazing choice of eating experiences in top quality restaurants, some with Michelin Star recognition.
