Le Mazarine is a very comfortable and well equipped apartment, full of light and space, located on the first floor of a classic 18<sup>th</sup> century building. Access to the apartment is via a typical stair case leading up to the first floor and the open plan living area and modern kitchen...the main living area and centre of the apartment, which is spacious and light, with 2 large windows opening out to the street and also skylights.

The two bedrooms are located each side of this main area and are collected by a long corridor, which also has large windows, on the rear of the building open with views over a typically Aixois garden. Wood flooring, terracotta and lots of closets

Comfort and harmony are the main characteristics of this 18th century small building which has been finely restored to enhance the natural balance between shape and materials as well as the rational and harmonious use of space - Modern comfort within old walls full of history. As you will see neither the walls nor the floors are absolutely straight and level...but this must be what makes old stones so attractive!

Fully equipped kitchen: fridge, induction hob, fan, kettle, toaster, microwave, electric oven, coffee machine, dishwasher, washing machine & dryer. Also air-conditioning, Wi-Fi, Satellite TV, DVD & CD players

Situated at the heart of the most antique and refined district of Aix-en-Provence, and just a short walk to shops, cafés etc... there is an English Book Shop/Tea room just around the corner!!

Aix-en-Provence is a very young, lively and happy town. It might seem a little frivolous but through its history it has proven itself to be serious and austere as well as brilliant and glamorous. There is a perfect mix of style and species and in the streets English is spoken almost as much as French!

And Aix-en-Provence also has its very own Champs Elysées: the famous Cours Mirabeau which is best known for its cafés and terraces where it is traditional to have a coffee and watch the world go by.
