

Maison aux Baies, Goult PROVENCE

– 6 bedroom village house – Sleeps 10
 - Courtyard pool and roof-top terrace

This stunning village house, set over 3 floors, is located in the centre of the ancient village of Goult. Built around a central courtyard with private swimming pool, this is a welcoming and relaxing area both day and night, with two different eating spots in the shade and at night the courtyard is lit up with lights, candles and lanterns.

The main house offers all amenities to all guests, space to gather with family and friends, as well as smaller quiet areas to relax by yourself. There are 2 double queen bedrooms, an office area, a lounge area, media/games room, and even a small library. A fully equipped kitchen awaits your purchases from the local market and a dining area invites to enjoy regional delicacies in an authentic setting. There are two indoor dining areas: one by the kitchen and the other is in a dining room with a vaulted ceiling.

The other four bedrooms (2 x double queen and 2 x twin beds) are in the adjoining annex around the courtyard, each with private access. These bedrooms are spacious and comfortable and combine authentic features such as original stone floors and arched ceilings with Provencal furniture. All bedrooms have their own ensuite or private bathroom and WC.

And the amazing rooftop teak-floored terrace offers stunning views over the Luberon valley, a perfect spot to relax, read or sunbath, or enjoy an evening aperitivo watching the sunset, and planning your next excursion.
